This Kaycha Labs Certification shall not be reproduced, unless in its entirety, without written approval from Kaycha Labs. The results relate only to the material or product analyzed. ND=Not Detected, ppm=Parts Per Million, ppb=Parts Per Billion, RSD=Relative Standard Deviation. Limit of Detection (LOD) and Limit Of Quantitation (LOQ) are used to describe the smallest concentration that can be detected and reliably measured by an analytical procedure, respectively. Action Levels are State determined thresholds based on 9 New York Codes, Rules and Regulations (NYCRR) for 100mg and Cannabis Law. The Measurement of Uncertainty (MU) error is available from the lab upon request. The "Pass/Fail" for ISO 17025 Accreditation #

include the MU. Any calculated totals may contain rounding errors.

Revision: #1 This revision supersedes any and all previous versions of this document.

This Kaycha Labs Certification shall not be reproduced, unless in its entirety, without written approval from Kaycha Labs.

The results relate only to the material or product analyzed. ND=Not Detected, ppm=Parts Per Million, ppb=Parts Per Billion, RSD=Relative Standard Deviation. Limit of Detection (LOD) and Limit Of Quantitation (LOQ) are terms used to describe the smallest concentration that can be detected and measured by an analytical procedure, respectively. Action Levels are State determined thresholds based on New York Codes, Rules and Regulations (NYCRR) Part 130 and Cannabis Law. The Measurement of Uncertainty (MU) error is available from the lab upon request. The "Decision Rule" for pass/fail does not include the MU. Any calculated totals may contain rounding errors.
